

My school is closed because of the

virus covid-19.

On

school will be

opening

because it is

now

safe

to be

in school.

It will be nice to see our teachers.

It will be nice to see our friends.

At school our teachers will help us

remember what to do and how to

learn.

We might feel excited and a bit

worried about going back to school.

It's ok to feel like this.

If I start to feel worried I can let my

family or my teachers know and they

will help me.
